than 30 minutes prior to market close on the trading day before the corporate action, or at any time thereafter at the Company's discretion subject to prevailing market conditions.

Trading Hours

Instrument	Trading Hours
US Equity Options	09:30 - 16:00* (New York)

*** The last 5 minutes of the trading session are limited to position closures only.**

Other fees

To ensure the physical settlement of an option, clients must submit a clear exercise request via the trading platform at least one hour before the final trading session ends (on the expiration date). The Company retains the right to reject an exercise request if the client's trading account lacks sufficient funds to meet the margin requirements.

If an exercise request is approved, the current position will be closed at a price of 0, and the delivered shares will be deposited into the trading account the following day prior to the commencement of the trading session. In these instances, a \$5 exercise fee per option will be charged.

If no exercise request is received, the contract will be automatically closed five minutes before the final trading session ends, with the next best available price on the market. If the option cannot be closed on the market during the main session, it will be closed after the session with a price of 0, and the standard commission per contract will be charged.

The Company reserves the right to change any of the above commonly used prices from time to time. Kindly note that some of the provisions of the contract specifications might change due to promotional offers. You are hereby requested to check your agreement with the Company and your trading terminal before placing orders.
